

# UNITED STATES COAST GUARD AUXILIARY

Recreational Boating Safety Visitation Program  
U.S. Coast Guard Auxiliary District 7  
**SAFETY STARTS HERE**

---

## REYR STATUS: What is it and how do I get out of it?

### What is REYR?

**REYR** is an acronym for “recertification required for failure to meet yearly requirements”.

### How did I get in REYR status?

As a certified Program Visitor (PV), the most common reason for entering REYR status is that the minimum of four PV visits were not completed and/or were not recorded in AuxData during the calendar year.

### How do I get out of REYR status?

You must complete two (2) satisfactory visits under the supervision of a certified Program Visitor who is not a family member.

The certified PV receives the credit for the two recertifying visits. The two supervised visits must be reported on ANSC 7046 with the certified PV shown as “Lead” and the PV in REYR status shown as “Trainee”. In the Remarks Section, note that the member in REYR completed two satisfactory PV visits to requalify as RBS PV. **The two visits must be recorded in AuxData.**

Following AuxData recording, the FC or FSO must submit a District 7 Help Desk Ticket under the category “Recertification (REYR – FC/staff use)”.

The Help Desk Ticket needs to have the members full name, member#, flotilla number and enough information for the DIRAUX staff to complete the re-certification process.

### Help Desk Ticket Example:

*Requesting removal of REYR status and PV recertification for (MEMBER NAME, MEMBER#, FLOTILLA#). (MEMBER NAME) completed 2 supervised PV visits on (DATE) with Lead (CERTIFIED PV. MEMBER#. FLOTILLA#). AuxData entries are complete.*

DIRAUX will reply to the ticket request.

### What do I do to stay current in the same year?

After completing the recertifying visits, the Program Visitor must then complete a minimum of four (4) more visits to meet the requirements for that year. **The visits must be reported and recorded in AuxData.**

---

### Are you in REWK status?

**REYR** is an acronym for “recertification required for failure to attend required workshop”. If you have not completed a required workshop, you must take it to be recertified. The workshop must be recorded in AuxData. After that, FC or FSO submits a D7 Help Desk Ticket requesting recertification as RBS PV.
